

RELO RA

EDGE FINISHING TRIM

The **RELO RA** edge finishing trim profile is the perfect finishing touch and design feature for any terrace made of wood, wood-like materials or ceramic tiles.

The simple installation and universal applications facilitate a wide range of possibilities: e.g. for pool border surrounds, stair treads, terrace borders with additional components such as the ventilation profile RELO V.

Made from high-grade aluminium with surface coating, the RELO RA protects exposed edges of decking boards, covers cut edges of ceramic tiles and conceals visible rough cuts.

The RELO RA profiles are glued at specific points in contact with ceramic tiles. For decking applications made of wood or wood-like materials, they can also be glued or screwed at specific points.

OVERVIEW

Dimensions:	Length 2.000 mm
Material:	Aluminium EN AW 6060
Surface:	Silver Anodized E6/EV1 RAL 7016

Anti-slip ribbed design
with high-quality
surface coating

Ribbed surface for
strong glue adhesion

Riser/ fascia recess and
housing for RELO V
